

## NTT DATA Long Term Care Solutions

NTT DATA demonstrates our commitment to healthcare with a practice dedicated to meeting the unique requirements of Long-Term and Post-Acute Care. We deliver innovative software and services based on our foresight of future needs and a deep understanding of our customers.

### NTT DATA in Long-Term and Post-Acute Care

Access to and effective use of operational and resident information can spell the difference between success and failure for a long-term care organization. You can put your trust in NetSolutions from NTT DATA, a web-based system of integrated financial and clinical software.

We offer you the choice of self-hosting or NTT DATA Private Cloud Services, including the NTT DATA state-of-the-art Data Center. Our powerful, cloud-based NetSolutions Integration Platform offers LTC providers unlimited possibilities for exchanging inbound/outbound data in any format.

You will not find a better partner or more cost-effective solution. We have demonstrated our commitment by receiving CCHIT® certification as EHR Technology for LT-PAC with additional certification for Skilled Nursing Facilities.

### NetSolutions: EMR, Billing, Financials, Communications

#### NetSolutions Clinicals for your EMR

Sophisticated tools designed to support the LTPAC Electronic Medical Record and give you ultimate assistance with friendly navigation and one-time data entry. Our **MDS 3.0 software** offers a logical process, with maximum ability to import responses. CMS-672/802 surveyor forms are completed automatically and can be updated on the fly.

You can create and download **Continuity of Care Documents** to share resident information electronically with other healthcare providers.

#### Uncommon Convenience

This partial Snapshot is one of three – ADT, Clinical, Financial – that give you summaries at a glance and link you to all areas of the system.

Drill down for details from the Snapshots.

The screenshot displays the NetSolutions web interface for a resident named Julie Abbott. The interface is organized into several sections:

- Header:** Shows facility information (FC10 - Facility 10), user (ABBOTT, JULIE J), and system (ACCT# 10399).
- Resident Information:** Includes current location (1 3 344 D), health record # (1165), account # (10399), date of birth (01/23/1950), and gender (Female).
- Visit Information:** Shows admission and discharge dates (02/19/2008) and type (IP).
- Reimbursement Information:** A table listing various insurance plans and payors.
- Clinical Information:** Includes a list of diagnoses with ICD-9, DX, and BILL CLINICAL codes.
- Physician Information:** A table listing the names, categories, ranks, and allergies of the attending and referring physicians.

PLAN	PAYOR	TYPE	START DATE	END DATE

  - » CareConnection
  - » Resident & Resource Scheduling
  - » Customer Relationship Management
  - » SNFQPI
  - » eAssignment & Messaging

Long Term Post Acute Care  
+Skilled Nursing Facility

CCHIT® certification gives you an objective way to select LTPAC software that is secure, complete, and ready for Electronic Health Records.

With **Care Plan**, you begin by selecting from suggested problems, using libraries including your own, built-in Diagnoses and I-PLAN libraries. Assign categories to notes and retrieve them by date, care plan problem, and author with **Interdisciplinary Progress Notes**. **User-Defined Assessments** offers an unlimited number of assessments and flow records with responses linked to the MDS.

**Therapute** is a complete system for managing therapy in Long Term Care. It stays current with MDS changes, assists with G-codes, estimates RUG-IV scores, and exports files for billing.

### Electronic Medication Management and Clinical Decision Support

These applications streamline the process, saving hours spent on paperwork while removing risk. Use apps to enter and maintain orders, check for adverse interactions, including Black Box warnings, and transmit orders to pharmacies nationwide. Generate up-to-date eMARs with tools to identify the resident and medication, and document administration including notes and vitals.

### AR-Billing and General Financials

NetSolutions offers a powerful and flexible **AR-Billing** system that can match your billing preferences with many processing options. AR-Billing offers One-Touch billing, expanded collections tools, and an optional 270/271 interface. For information at every step of the revenue cycle, use its readable reports of messages received electronically such as the remittance advice. Resident Funds tracks funds in the residents' trust account.

NetSolutions **General Ledger** provides control of financial record keeping, reporting, analysis, projections, budgeting, and per-patient-day statistics. **Accounts Payable** application maintains vendor information, processes invoices, and centralizes AP activities for multiple facilities.

### Documentation Management

NetSolutions **eDocuments** imports files such as scanned documents and photos and stores them for quick reference. Our **Quality Assurance** software provides interactive templates for complete Infection Control and Incident Reporting. Our **eResults** interface displays lab and radiology results in NetSolutions. **Customer Relationship Management** software organizes contacts with helpful tools that track leads, inquiries, marketing, prospect data, and wait lists. With **Resident & Resource Scheduling** you make appointments and check schedules for individual residents and groups, staff, and resources.

### An EHR System with Business Intelligence, Point of Care, Communications

**Insight Dashboard** software provides business and clinical intelligence through dashboards designed for LTC providers. It's an out-of-the-box solution that brings you Key Performance Indicators with in-depth drop downs, consolidations, comparisons, and alerts.

Our **Point of Care** software offers user-defined buttons, complete with graphics and labels, and multiple languages. It can capture data for almost all MDS 3.0 items and export them to NetSolutions MDS software. Improves accuracy of ADLs for RUG-IV calculations.

**eAssignment and Messaging** improves internal communication, manages tasks, and scans your NetSolutions system, alerting you to changes in resident condition that need your attention.

**SNFQAPI** offers tools to improve performance on surveys and star ratings, reduce risk of litigation, and meet QAPI requirements
