

Ease Workloads and Elevate Care with Arize EHR

Arize is our modern EHR solution designed to eliminate the frustrations of outdated systems.

Behavioral health and human services organizations are struggling to meet growing demands due to rigid EHR systems that hinder efficiency and contribute to staff frustration and burnout. Arize was built to simplify work and administrative complexities for providers, making their jobs easier and faster, in order to help make their clients' lives better.

Arize is backed by experts who have walked in your shoes.

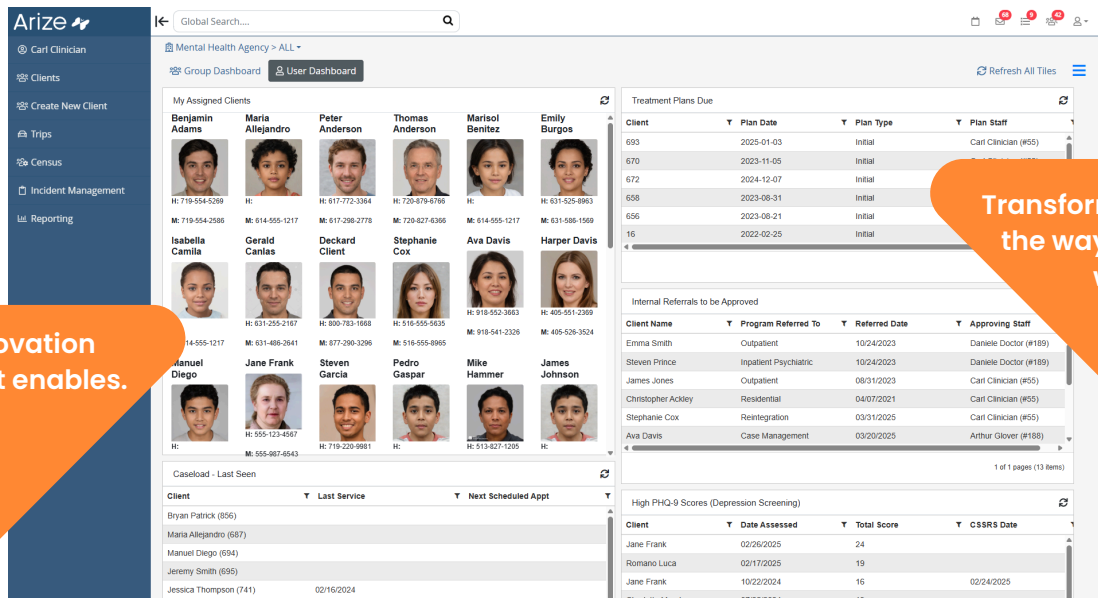

Our team has been serving health and human services providers for over 45 years and deeply understands the challenges you face. That's why Arize is designed to meet your current needs, while positioning you for future growth, allowing you to provide a higher level of coordinated and integrated care.

Arize improves engagement and staff satisfaction with features like:

- Customizable views and dashboards that mirror your workflows and display key data
- Global search across any record or documentation you have access to in Arize
- Integrated telehealth and AI capabilities
- Leverage browser functions like language translation and voice-to-text
- Collaborate with clients and all care team members on a single platform, with full control over what data and functions external users access
- Comprehensive and configurable billing

"Arize is bringing our teams together by allowing everyone to access the same system and information, which helps boost productivity while making staff happier. We know Arize will be able to grow with us as we continue to expand our programs."

- **Heidi Shultz,**
CEO, HopeWorks

Innovation that enables.

Transforming the way you work.

Easily Configurable

Arize provides tools that can run right out of the box or be easily configured to adapt to your work. Customize your views, dashboards, reports, and more to cater to your specific needs and workflows.

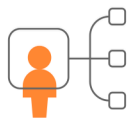

Full Mobile Functionality

Access all of Arize anytime, anywhere, on any device. Collect and manage data, documentation, progress notes, and other information in real-time, even with limited cell service.

Cost Effective

Arize minimizes vendor dependence, empowering you to make changes without unnecessary costs and delays. Easily expand the system to meet evolving requirements and scale as you grow.

Integrated Solution

Arize integrates all features into one platform, eliminating the need for multiple systems. It supports a complex mix of programs and includes a complete billing and revenue cycle management solution.

Modern Technology

Arize leverages native browser tools to provide a superior user experience. Features like global search, voice-to-text, language translation, built-in telehealth, and integrated AI tools enhance satisfaction.

Enhanced Collaboration

Clients and their care teams can communicate and coordinate effectively, plus securely exchange information with providers, case managers, physicians, and others.
