

## **Optimum Clinicals Assists with COVID-19**

We understand healthcare workers are in the forefront of this global pandemic and we are here to provide support and services during these unprecedented times.

Cantata Health is dedicated to assisting you in the screening and monitoring of your patient population as COVID-19 continues to affect our communities. Our configurable Electronic Health Record (EHR) platform ensures your organization puts patients first to meet care objectives and give your staff more visibility into their patients' overall health.

### **Optimum Clinicals Effective Alerts for COVID-19**

Our Clinical Alerts tool can aid your clinicians in providing visual representation of patients who may be experiencing factors related to COVID-19. These real-time alerts may be defined based on the following:

- Vitals/Symptoms
- Abnormal Labs
- Diagnosis Codes

These alerts assist with identifying early indicators and provide messaging for improving clinical outcomes. Guidance can be presented to your clinical staff for the patients that may be experiencing signs and/or symptoms related to COVID-19.

Cantata Health is your partner through this time of need. We are dedicated to helping you deliver better patient care while also helping you take control of your financials.

Thank you for your service and dedication to your community. Please contact us at [covidresponse@cantatahealth.com](mailto:covidresponse@cantatahealth.com) or 877-532-6347.

Sincerely,  
Team Cantata Health
